Prerna Soni Featured in NYREJ Spotlight on Women in Commercial Real Estate

In the Media | August 27, 2026

Partner Prerna Soni is featured in the *New York Real Estate Journal*'s spotlight on Women in Commercial Real Estate, which honors the outstanding women making a measurable impact across the commercial real estate landscape.

In the Journal's profile, Prerna reflects on leadership lessons she's learned, discusses the anticipated transformative impact of AI on the industry, and shares advice for the next generation of women entering the commercial real estate space: "Celebrate other women's wins, say their names in rooms they are not in, and create opportunities for them when you can. Our industry is stronger when women see one another's success as something to build on, not compete with."
