GIBSON DUNN

Gibson Dunn Advised Asterion Industrial Partners on Sale of 28% Stake in Sorgenia

Firm News | August 8, 2025

Gibson Dunn advised Asterion Industrial Partners, an independent investment management firm with an experienced team focusing on European infrastructure, on the sale of a 28% stake in Italian renewables company Sorgenia.

The transaction forms part of a strategic reorganisation that also includes the entry of Sixth Street as a new shareholder in the company, now valued at over €4 billion. The sale follows the successful completion of a transformation process launched in 2020 by Asterion, in partnership with F2i, Italy's largest independent infrastructure fund manager.

Our team was led by partner Wim De Vlieger and included associates Osvaldo Galeano and Romain Tourenne and staff attorney Carmen Heredia.
