Gibson Dunn Advised Scaleup Europe Fund, Managed by EQT, on Pigment Investment

Firm News | October 26, 2026

Gibson Dunn advised the Scaleup Europe Fund, managed by EQT, in connection with its lead investment in its Series E financing in Pigment, the AI-powered enterprise business planning and performance management software platform, at a $2.3 billion valuation.

The Scaleup Europe Fund is an investment fund backing ambitious European technology companies with the potential to become global leaders. Targeting €5 billion, the Fund brings together public and private capital and invests across DeepTech, AI, and Life Sciences.

The Gibson Dunn team was led by London corporate partners Wim De Vlieger and Till Lefranc and Paris corporate partner Ariel Harroch and included London associate Romain Tourenne and Paris associates Alison Pereira Martins and Emma Enfert.

Partners James Cox and Michael Collins and associates Georgia Derbyshire, Akiva Reich, and Noémie Massé advised on employment matters; partners Alison Beal and Lore Leitner and associates Chris Puttock, Ioana Burtea, and Elisa Wong on intellectual property, data protection, and AI; partner Pierre-Emmanuel Fender, of counsel Marija Bra?kovi?, and associates Ksenija Radonjic and Julie Doria on anti-bribery, corruption, and anti-money laundering; and associates Irene Polieri and Josephine Kroneberger on international trade.
