The Giving List Women

Gibson Dunn is featured as a Champion Partner in the latest edition of “[The Giving List Women](#)” book [PDF]. The section highlights how partner and Pro Bono Chair Katie Marquart was inspired to launch the firm’s Justice for Women and Girls Initiative at The Giving List Women Summit 2024 after hearing that only 1.8% of all U.S. philanthropic dollars go to women and girls’ organizations. “It made me reflect on our pro bono practice and realize we could be doing more to support women and girls,” Katie said.

The Justice for Women and Girls Initiative is a celebration of Gibson Dunn’s longstanding commitment to pursuing equality and equity for women and girls and a recognition of the important work that remains to be done. Our work in this initiative spans five key pillars: educational equity, access to healthcare, legal and social equity, economic empowerment, and prevention of violence against women.
