New data from the London Stock Exchange Group for the first quarter of 2026 shows that Gibson Dunn topped the law firm rankings in APAC with the highest total deal value: approximately \$37.2 billion across nine deals.

Law.com International reports that “the firm’s strong showing comes amid continued investment in its Asia platform, particularly in Singapore, where it has been building out its corporate bench. In February, the firm hired private equity and M&A partners Nigel Gleeson and Jon Bowden.”
