GIBSON DUNN

IJGlobal Names Four Gibson Dunn Transactions Among its 2023 Deals of the Year

Accolades | March 18, 2024

IJGlobal

IJGlobal recognized four Gibson Dunn transactions as 2023 Deals of the Year at its annual *IJGlobal* Awards: Gigapower, LLC, a joint venture between AT&T and investment management company BlackRock, was named the "Digital Infrastructure Deal of the Year – Fiber – North America;" JFK's New Terminal One refinancing won "Transport Deal of the Year – Airports – North America;" the Claude "Bud" Lewis Carlsbad desalination plant's upgrade was recognized as the "Water Deal of the Year – Desalination – North America;" and the Puerto Rico toll road monetization project won "Transport Deal of the Year – Roads – North America." The awards were presented on March 14, 2024. Gibson Dunn maintains a leading Projects and Infrastructure Practice Group, with experience across multiple jurisdictions and an in-depth knowledge of the industrial, commercial, financial, risk management and political issues that are inherent in the procurement, development, financing, construction, operation, acquisition and disposition of major domestic and international projects and infrastructure facilities. The group has been widely recognized among the top project finance and public-private partnership practices worldwide, and has particular experience in acquisitions and dispositions of projects and infrastructure assets, in addition to procurement, development and financing of the same.
