London

Trinh Chubbock is a partner in the London office of Gibson Dunn. She is a member of the Projects and Infrastructure Practice Group.

Trinh is an energy specialist focusing on project developments, M&A transactions, and commercial contracts. She has a broad practice covering the full energy value chain from upstream oil and gas to downstream sectors. She also focuses on renewable energy and energy transition.

Trinh largely covers projects and transaction in the UK, Europe, the Middle East, and Africa. Trinh spent 2.5 years working in Abu Dhabi before relocating back to London.

Trinh is described by *The Legal 500 UK 2025* as “a commercially aware lawyer, who combines deep legal understanding and commercial aspects in her advice.” She has been recognized by *The Legal 500 UK 2025* for Oil and Gas, Power and Renewables.

Trinh received her Bachelor of Arts from Boston College in Massachusetts USA, and she is admitted as a solicitor in England and Wales.

### Selected experience\*:

#### Energy Transition, Power and Infrastructure

- An industrial gases company in relation to the development of an air separation unit and the supply of industrial gases in connection with a low carbon hydrogen production project, including advising on energy transition regulation and subsidy arrangements.
- Mezzanine lenders on the power supply and grid connection arrangements in connection with a data center development in the UK.
- KKR on its landmark investment in Gulf Data Hub, one of the Middle East's largest independent data center platforms.
- BOC, a Linde company, on operations and maintenance arrangements in connection with the proposed H2H Saltend low carbon hydrogen production project involving a 600-megawatt low carbon hydrogen production plant with carbon capture.
- The Nature Conservancy in respect of general training on renewable power project developments and related project documentation.
- An infrastructure fund on a proposed acquisition of a UK-based pre-combustion carbon-capture technology business.
- Hydro REIN on its successful acquisition of an 80% stake in a 2.4 GW portfolio of 25 early phase wind power projects in Sweden and Norway from IOWN Energy,

### Capabilities

Projects  
Energy Regulation and Litigation  
Energy and Infrastructure
