Omar Samji is a partner in the Houston office of Gibson, Dunn & Crutcher. Omar advises clients on the acquisition, financing, and development of low- and zero-carbon energy projects, specifically targeting the increased baseload power generation required to meet AI-driven load growth, electrification, and net-zero goals.

Omar represents energy companies and investors in equity and debt investments, mergers and acquisitions, joint ventures, and project development. His practice covers the spectrum of energy technologies, with a focus on the commercialization of advanced geothermal, long-term energy storage, and Small Modular Reactor nuclear technologies.

Consistently ranked as a leading lawyer by *Chambers USA* and *Chambers Global*, Omar is recognized by clients for delivering “fantastic results” and being a “very measured,” “technically polished” lawyer who brings a “high level of legal sophistication” to complex transactions.
