Paul Yu Associate Attorney

pyu@gibsondunn.com

T: +1 415.393.8205

San Francisco

Paul has advised clients on issues related to global product development, enforcement actions, and regulatory compliance, as well as acquisitions, investments, and commercial arrangements between parties in the global payments space.

Paul regularly counsels clients on compliance with federal and state law applicable to electronic payments, mobile payments, digital assets (including cryptocurrency and stablecoins), in-game currencies, and prepaid access, including state and federal money transmission laws and licensing regimes, state and federal gift card laws, Regulation E, and the Bank Secrecy Act.

Paul's experience includes: *

- Advised launch of a stablecoin product that will enable customers in Brazil 24/7 access to USDC.
- Advised a financial technology company, which offers a digital ecosystem with ingame currencies, on various regulatory matters, including its acquisition by an investment group.
- Advised a private equity firm in its acquisition of a majority stake in one of the largest global payment processors.
- Advised a leading financial technology company on a variety of regulatory matters, including product development, maintenance of financial services licenses, and commercial agreements
- Provided counsel to a multinational technology conglomerate during the introduction of an international e-commerce payment solution.

*Includes work performed at a previous firm.
