

Michael Dziuban Discusses Record FCA Settlements and Growing Cybersecurity Enforcement Risks

In the Media | August 6, 2024

BioWorld

BioWorld reported on a Gibson Dunn report detailing a record \$1 billion in False Claims Act settlements for the first half of 2024, with a focus on the growing enforcement of federal cybersecurity requirements. Michael Dziuban, one of the authors of the report, discusses the increasing risks for device makers, the Department of Justice's cyber-fraud initiative, and legal theories being tested in the cybersecurity space.
