GIBSON DUNN

The Lawyer Ranks Gibson Dunn Among World’s Leading Litigation Practices

Accolades | July 20, 2026

Gibson Dunn has been recognized as one of the world’s premier litigation firms in *The Lawyer*'s 2026 Global Litigation 50, which ranks the largest litigation practices worldwide. The report ranks Gibson Dunn as the fourth-largest litigation practice globally. The publication also identifies Gibson Dunn as the fastest-growing litigation practice among the world’s 10 leading firms.

Beyond the rankings, *The Lawyer* highlights Gibson Dunn’s long-term strategy of investing in a premier global disputes platform, describing the firm as "the clearest example of a firm with disputes embedded in the heart of its broader strategy." The report points to the firm’s continued investment in elite litigation talent, including recent strategic lateral additions and partner promotions. It also highlights the firm’s role in representing clients in some of the market’s most significant matters, including increasingly complex cross-border litigation and investigations.

Published annually, *The Lawyer*'s Global Litigation 50 evaluates the world's leading litigation practices based on global litigation revenue and examines the strategies shaping the international disputes market. This year’s report concludes that litigation has become an increasingly important driver of client relationships, premium mandates, and global growth for the world’s leading law firms.
