

Webcast: IPO and Public Company Readiness: Advance Planning for 2025 and 2026 IPOs – Cybersecurity and Privacy Considerations

Webcasts | February 6, 2025

In today's regulatory and digital environment, cybersecurity and data privacy are critical factors in the IPO and public company readiness process. Please join us for a presentation that provides a comprehensive overview of the key considerations for assessing cybersecurity and data privacy preparedness, with a focus on helping companies identify, assess, and mitigate risks. We explore how to effectively characterize these risks for disclosures and navigate the scrutiny that comes with the IPO process, including responding to diligence inquiries from regulators, investors, and other stakeholders. This session will equip legal professionals with the tools to ensure that cybersecurity and data privacy are adequately addressed in IPO planning and execution, helping to mitigate potential liabilities and position companies for long-term compliance and success as a public company.

MCLE CREDIT INFORMATION: This program has been approved for credit in accordance with the requirements of the New York State Continuing Legal Education Board for a maximum of 1.0 credit hour, of which 1.0 credit hour may be applied toward the areas of professional practice requirement.
